56th Annual NAATSHO Conference

August 4 - 8, 2024

Hilton Branson Convention Center
Branson Landing
200 Sycamore Street
Branson, Missouri

NAATSHO

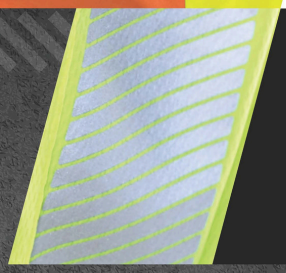

MoDOT

REFLECTIVE apparel.

FIT YOUR CREW ▶ **reflectiveapparel.com**

MADE WITH eco CHILL TECHNOLOGY

Our Comfort Trim does not buckle or rub like sewn on reflective tape. It lasts longer, making it a more comfortable and durable choice for DOT workers.

KEEPING WORKERS VISIBLE

CREATED AND DESIGNED WITH NAATSHO INPUT

Vast Inventory

Our inventory reaches nearly 100,000 jackets for the winter season, and even deeper inventories of summer weight gear for the warmer months. With high speed lamination facilities, we can deliver on our commitments.

Rapid Delivery

We manufacture around the world as well as domestically to keep our prices competitive. Our offices, warehouse and production facilities are located in Marietta, Georgia, and we pride ourselves on rapid turnaround of orders.

Sizes (S-8XLT)

Our high visibility apparel is used by a variety of industries, differing climates, and on a large range of body types. We carry sizes ranging from Small to 8XLT ensuring an accurate and safe fit for every customer.

Welcome

I want to welcome you to the NAATSHO's 56th Annual Conference personally. It's an exciting time for NAATSHO as we continue to grow and adapt, remaining responsive and motivated to the needs of Occupational (Employee) Health and Safety. The world of Occupational (Employee) Health & Safety is an exciting area in which to work/study/play, and we'll continue to meet and bring inspired people together in forums like this, to ensure our NAATSHO members remain at the cutting edge. Each of our departments is confronting a time of many changes and this conference is designed to help meet these challenges through a nationwide organization that believes in caring and sharing.

The Missouri Department of Transportation has put together a wonderful conference and scheduled activities for you to take part in. Thank you, Missouri DOT, for your efforts and time in creating this conference. I also want to thank our members for their continued participation and enthusiasm in NAATSHO, as well as our sponsors for their incredible support which allows us to continue to offer these opportunities. During this conference, you will hear from many states that have chosen to provide presentations as well as multiple round table discussions. We hope to achieve knowledge sharing, which of course is where the phrase caring and sharing is developed from.

Let me give you a brief update on where NAATSHO is today. With our updated website and 48 states included on our email lists, we continue to make improvements as an organization. NAATSHO has begun to see more information requests from general knowledge to participation in various transportation organizations. We have also seen an uptick in requests for participating in research projects. It is an exciting time for NAATSHO, and your Board of Directors intends to keep the positive momentum going into the future. We hope that you will take an active part in our success.

I am looking forward to finding transformative ways to improve our visibility as an organization and the way we operate to continuously improve our ability to expand knowledge, skill, and research opportunities for NAATSHO to be involved in. Each of us has an overall goal for our department to continue to excel at meeting the challenges of Occupational (Employee) Health & Safety despite the setbacks each of us incur. We should all be very proud of where we are today and excited about where we are headed.

As I close, I'd like to thank each of you for attending our conference and bringing your expertise. You, as leaders in Occupational (Employee) Health and Safety have the vision, the knowledge, the dedication, and the experience to help us pave our way into the future. You are truly our greatest asset, and NAATSHO could not accomplish what we do without your support and leadership. Throughout this conference, I ask you to stay engaged and proactive in helping us shape the future of NAATSHO.

My respect and thanks go out to all of you.

Timothy M Carey
NAATSHO Interim President
Iowa Department of Transportation

North American Association of Transportation Safety & Health Officials

NAATSHO

About

The North American Association of Transportation Safety & Health Officials, Inc., (NAATSHO) is a transportation industry organization focused on advancing all aspects of transportation safety within the geographic boundaries of the North American continent. NAATSHO sponsors an annual conference and other such meetings or trainings and facilitates discussions on subjects related to transportation worker safety and health.

Board

The Executive Board which consists of the President, Vice-President, Regional Directors, Secretary, Treasurer, Past-President and Past-Treasurer assume the primary responsibility for operating NAATSHO.

The following individuals make up the Executive Board and are serving terms as defined in the organization's approved bylaws.

President:
Vice-President: Timothy Carey, Iowa
Treasurer: Matthew Sonner, Missouri
Secretary: Cookie Leffler, Mississippi
Past President: Samuel Salazar, Texas
Northeast Region 1: Matthew Mank, Maine
Southeast Region 2: Valerie Januski, Kentucky
Central Region 3: Tammi Clark, Kansas
Western Region 4: Robert Godina, Texas

Voting

During this conference, nominations will be made, and votes shall be cast for the Vice-President, Treasure, Region 1 Director and Region 2 Director. Each attending delegate will have the opportunity to nominate a person(s) to fill these positions. One designated delegate for each state will be responsible for casting the state's official vote and newly elected board members will be announced by the end of this conference.

Welcome to Branson Missouri

Branson, Missouri was founded in 1903 when the founders were planning an industrial center in the Ozarks that would generate logs, lumber and manufactured products for the outside world. Today, as country music theatres, motels and restaurants cover the surrounding hills, Branson is known as the "Live Entertainment Capital of the World" and located within a day's drive of 1/3 of America's population. When incorporated in 1912, Branson was home to only 1,200 residents. Shortly after, it became a resort town with a commercial ice plant, soft drink bottling plant, candy factory and ice-cream factory near the waterfront.

By the 1930's Taneycomo had become an affordable vacation spot easily assessable by car and train. In the 60's, tourism began to grow rapidly, making the city what it is today. In the 70's there were only a few shops scattered with 5 live music shows; now that number exceeds 50.
